Career Ed 8/9 – 2026-27 Plan

Skills for a Changing World

The future is changing quickly. New technologies, including artificial intelligence (AI), are transforming how people learn, work, and connect with others.

Career Education 8 & 9 is designed to help students explore who they are, understand the changing world around them, and develop the skills needed for future success.

	Nov 24-Dec 1	Mar 8-11	June 7-11/14-18
Focus	*Who Am I?*	*How is the World Changing?*	*What Future Am I Building?*
	▪ Exploring strengths, interests, and skills ▪ Understanding ourselves as learners ▪ Growth Mindset	▪ Exploring careers and opportunities ▪ Learning about AI and emerging technologies ▪ Identifying transferable skills for the future	▪ Reflecting on personal growth ▪ Planning future goals ▪ Developing adaptability and lifelong learning skills
